

FINAL REPORT

SHORT FIELD EXPERIENCE SPED 331/350

This final report provides an overview of the field experience and summarizes what the candidate learned from engagement in professional duties, observations, interviews, discussions and other interactions with the students and educators at the host school. Discussions should focus on measures to accommodate student needs and to ensure all learners are provided provisions that facilitate the acquisition and comprehension of relevant information. This final report is included in the final submission of the Short Field Experience Binder.

This report should be a three-(3) page formal paper, double-spaced, and typed (APA format). In this summation you are to:

1. Provide a description of the physical facility and the available supplies and/or equipment in the school to which you were assigned;
2. Provide a general description of the component of the N C Standard Course of Study that was taught during your visits;
3. Provide a description of instructional efforts to facilitate learning for exceptional students;
4. Discuss the provisions to infuse technology and other resource in the learning activities;
5. Describe your overall impression of the characteristics and work of the teacher;
6. Discuss venues to provide appropriate learning experiences for all learners and how you as a professional educator will work toward implementing these measures;
7. Discuss your feelings toward your goal of teaching following the completion of your field experience;
8. Provide reflections about the field experience that will influence the teacher that you wish to become in the future.
